Professional Summary

Motivated and results-driven Cloud Engineer and Network Engineer with strong foundational knowledge in AWS cloud architecture, networking, and system administration. Hands-on experience in building serverless applications using **AWS Lambda**, **API Gateway**, **SES**, and **EC2**, with a focus on scalability, security, and performance optimization. Proficient in **Python**, **Linux**, and networking protocols **(TCP/IP, DNS, VPN)**. Familiar with DevOps practices and cloud monitoring tools. Seeking an entry-level role to design and deploy reliable cloud-based solutions while continuously enhancing technical expertise.

Technical Skills

- **Cloud Technologies:** AWS (SES, Lambda, API Gateway, IAM, EC2, S3)
- **Networking:** TCP/IP, DNS, LAN/WAN, Subnetting, Routing, Switching, VPN
- **Programming Languages:** Python
- **Database Systems:** MySQL
- **Operating Systems:** Linux, Windows
- **Version Control:** Git, GitHub
- **Web Technologies:** HTML, CSS
- **Other Tools & Technologies:** MSWord, Excel

Projects

- **Automated Email Notification System with AWS SES**
  Tools: AWS SES, AWS Lambda, AWS API Gateway, AWS IAM, Python
  - Designed and implemented a serverless email notification system handling password resets and order confirmations.
  - Automated email notifications using **AWS Lambda**, reducing manual effort by 80%.
  - Improved message delivery reliability to 99% using event-driven architecture.
  - Enhanced scalability to support 500+ email triggers per day without performance issues.

Internships

- **AWS Cloud Virtual Internship** *Sep 2022 - Nov 2022*
  - Deployed **EC2** instances and configured **IAM** roles for secure access management.
  - Gained hands-on experience with **AWS** services such as **EC2**, **S3**, **IAM**, **Lambda**, and **API Gateway**.
  - Learned best practices for cloud security, scalability, and cost optimization.
  - Exposure to real-world cloud implementation and architecture.
- **Web Developer Virtual Internship** *Apr 2023 - Jul 2023*
  - Gained hands-on experience in frontend and backend web development.
  - Built small-scale applications using HTML, CSS, JavaScript, and MySQL.
  - Learned version control (Git) and best practices for collaborative development.
  - Assisted in building and modifying basic web application modules.

Education

- **Srinivasa Institute of Management Studies** *2023 - 2025*
  Master's in Computer Applications CGPA : 8.55
- **Samata Degree College** *2020-2023*
  Bachelor of Computer Science CGPA : 7.89

Certifications

- **Cybersecurity Essentials -** Cisco Networking Academy
- **AWS Cloud Virtual Internship -** Eduskills
- **Web Developer Virtual Internship -** Datapro
- **Palo Alto Networks Cybersecurity Academy -** Eduskills
